

CERTIFICATION EN 12830:2018

This is to certify that the TXH US915 and TXH EU868 sensors have undergone the following tests per the EN 12830:2018 standard regarding "Temperature recorders for transportation, storage, and distribution of refrigerated, frozen, and ice cream food items". The TXH intended for use only for storage applications and shall be periodically verified according to EN 13486.

- Determining temperature measurement error
- Influence of ambient temperature
- Determining response times
- Determining error relative to time recordings
- Testing the recorder's temperature under conditions of storage

For this entire test, the indicated sensor conforms to the provisions of the EN 12830:2018 standard.

Independent 3rd party testing was completed by CSA Group

Lance Pitka, CTO

A handwritten signature in black ink, appearing to read "Lance Pitka", written over a light blue grid background.
